INFORMATION DISCLOSURE STATEMENT

Applicants submit herewith patents, publications or other information (attached herewith and listed on the attached Form PTO-1449) of which they are aware, which they believe may be material to the examination of this application and in respect of which there may be a duty to disclose in accordance with 37 C.F.R. § 1.56.

This Information Disclosure Statement, as far as is known to the undersigned, is filed more than three months after the filing date of the application but before the mailing date of a first Office action on the merits.

A list of the patent(s) or publication(s) is set forth on the attached Form PTO-1449 (modified). A copy of each of the items listed on PTO-1449 is supplied herewith, except for items R, S, T and U, which are standard specifications for popular software tools and considered to be background material only. Item C is believed by applicant to be the most relevant of the art submitted herewith. A concise explanation of relevance of the remaining items listed on PTO-1449 is not given.

While the information and references disclosed in this Information Disclosure Statement may be "material" pursuant to 37 C.F.R. § 1.56, it is not intended to constitute an admission that any patent, publication or other information referred to therein is "prior art" for this invention unless specifically designated as such. In particular, the effective date of item Q is unknown and therefore its status as prior art is unclear.

In accordance with 37 C.F.R. § 1.97(b), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 C.F.R. § 1.56(a) exists. It is submitted that the Information Disclosure Statement is in compliance with 37 C.F.R. § 1.98 and MPEP § 609 and the Examiner is respectfully requested to consider the listed references.

Respectfully submitted,
